

A Struggle With Titans pages:

62	litigation over fluoride damage
opp. page 64	cryolite (photo)
opp. page 65	destruction of bees
116	ALCOA fluoride waste problem
117	litigation over fluoride damage
118	litigation over fluoride damage
157	bone changes in Scottish aluminium workers
266-7	Canadian commission member's pro-fluoride interests
280	aluminium company representatives at Bern conference
282	Swiss citizens affected by fluoride damage represented at Bern conference

Health Effects of Environmental Pollutants pages:

53	fluorosis near
53-54	fluoride accumulation in plants and insects

Fluoride and Truth Decay pages:

5	Alcoa's Vancouver, Washington, plant dumped 1,000 to 7,000 lb of fluoride waste into Columbia River monthly
5-6	fluoride injury to cattle caused by Alcoa
6	fertilizer industry underprices aluminium industry
7-8	roles of Oscar Ewing and Edward L Bernays in promotion
13	fluoride-emitting industries
27	24.6 ppm on spinach crops near fluoride-emitting plant at Troutdale, Oregon

Fluoridation and Truth Decay continued:

- 31 Nebraska Health Commissioner Dr A L Miller  
wonders aloud to Congressional Committee about  
how Ewing became Federal Security Administrator and  
whether Alcoa "might not have a deep interest in  
getting rid of the waste products from the  
manufacture of aluminium products"
- 130-2 Barci v Intalco lawsuit over fluoride damage to  
crops, livestock and human health from aluminium plant
- 134 not technically or economically feasible to  
control fluoride emissions
- 134 manufacture of aluminium
- 134 new aluminium process to eliminate expense of  
containing fluoride emissions
- 134-5 depletion of cryolite instead of recycling fluorides
- 135 disposal problems of aluminium, steel and  
fertilizer industries
- 149 split suture in peaches near aluminium mill
- 158-9 from 3 ppm up to 140 ppm in crops in first 73 days  
of operation of Harvey Aluminium Company,  
The Dalles, Oregon
- 163 apparent "sweetheart contract" between  
government and industry
- 165 lowered child hemoglobin near  
Czechoslovakian aluminium plant
- 166 fluoride poisoning symptoms and  
knee-joint osteosclerosis  
near Japanese aluminium plant
- 185 Rockefellers and aluminium, fertilizer and  
drug syndicates
- 196 20-40 year old male workers only permitted in  
Communist aluminium factories
- 224 Alcoa advertises prior to AMA or USPHS endorsement
- 224-5 Alcoa's response to opponents

Environmental Fluoride 1977 pages:

9-10	form of emission reductions in emissions from new plants comparison of US and Canadian emission levels
11	emissions from Canadian plants
12	emissions from US plants
13	fluoride emission rates
14	comparison of US and Canadian emission levels
17	North American discharge estimated at 63,000 tonnes/year
27	influence of effluent on Rhine and Ham river water
83	fluoride intake among potroom workers

Fluoridation \ The Great Dilemma pages:

30	F <sup>-</sup> emission
32	F <sup>-</sup> emission
127	F <sup>-</sup> emission
128	Bolzano, Italy
129	F <sup>-</sup> concentration
131	F <sup>-</sup> emission
137	fluorosis near
138	Kitimat, BC
155-8	report on fluoride pollution from Anaconda Aluminium Company in Glacier National Park, Montana
162	gastric ulcers in workers
221	cancer mortality in workers
296	F <sup>-</sup> emission

Fluoridation 1979:

Scientific Criticisms and Fluoride Dangers pages:

274-5	aluminium smelters planned for Victoria
275	aluminium smelters in New South Wales
277	fluoride emission from aluminium smelter
277	"yet another man-made pollution disaster" caused by Reynolds Metals Company smelter

Fluoride \ The Aging Factor pages:

10	fluorosis near
11	mass poisonings by fluoride emissions from
85	environmental intake
111-114	human and animal fluorosis near
116	

Fluoride in Australia \ A Case to Answer pages:

13	McKay engaged by ALCOA
44	urinary output in aluminium works
44	occupational exposure "probably high enough to constitute a hazard in any case
45	up to three times normal blood fluoride levels in study at Bell Bay Comalco aluminium smelter, Tasmania
45	chronic lung disease in four of fourteen workers at Bell Bay Comalco aluminium smelter, Tasmania
45	gastric symptoms in twelve of fourteen workers at Bell Bay Comalco aluminium smelter, Tasmania
45	acute dyspnoea in most workers at Bell Bay Comalco aluminium smelter, Tasmania
45	tear production in most workers at Bell Bay Comalco aluminium smelter, Tasmania

Fluoride in Australia \ A Case to Answer continued;

- 45 coughing in most workers at  
Bell Bay Comalco aluminium smelter, Tasmania
- 45 nausea in most workers at  
Bell Bay Comalco aluminium smelter, Tasmania
- 45 no radiological examinations in study of workers at  
Bell Bay Comalco aluminium smelter, Tasmania
- 45 minor osteosclerosis not ruled out in study of workers  
at Bell Bay Comalco aluminium smelter, Tasmania
- 53 Colonial Sugar Refinery interest in Gove Aluminium
- 54 polluting industries desperate to  
attach social benefits to their operations
- 54 damage to Hunter Valley fauna and cattle from  
Alcan Australia smelter
- 54 damage to bees in Hunter Valley from  
Alcan Australia smelter
- 54 damage to flowers in Hunter Valley from  
Alcan Australia smelter
- 54 damage to grapes in Hunter Valley from  
Alcan Australia smelter
- 54 tank water 1.14 ppm — indicative of heavy  
atmospheric fluoride concentrations near  
Alcan Australia smelter
- 54 muscular, skeletal, nervous and blood system  
abnormalities in residents near St Regis smelters
- 55 emissions from Alcan smelter at Kurri Kurri, NSW, nine  
times higher than permitted in the United States
- 55 emissions from ALCOA smelter at Point Henry, Victoria,  
four times higher than permitted US level
- 55-6 cheaper to pay fines than to control fluoride  
wastes, says Reynolds Aluminium Company
- 56 aluminium companies remove to Australia
- 57 Chemical Week lists companies  
benefiting from fluoridation

58 1.7 tons/day of fluoride wastes dumped into  
Corio Bay, Geelong, by ALCOA

68 NAS fluoride report scientists' connections with  
aluminium producers

## 157 fluoride price before and after fluoridation
