

Fluoridation and Truth Decay pages:

- 8-9 dental officials claim that topical fluoride prevents
gum disease
- 9 Prof Muhler reports gum damage during his
topical fluoride experiments
- 9 fluoride "increases the activity of the
already existing periodontoclasia"
- 15 ADA has trouble getting volunteer fluoridation salesmen
- 16 Dr C C Bass opposed to fluoridation and
topical fluoride treatments
- 18 ADA endorsement of Crest, with warning it should not be
used by the under-sixes
- 18 no FDA research on alleged effectiveness of Crest
- 24 US Dispensatory statement that fluoride dentifrices and
internal medicants are unjustified is expunged from
post-1950 editions
- 31-2 researcher finds fluoride pills toxic — then recommends
free fluoride pill programme
- 32 WHO and AMA advice on fluoride and vitamin pills
- 32 fenfluramine claimed as anti-obesity
drug by Dr J Sedgwick
- 32 Dr Sedgwick claims the fluoride acts as a sedative
- 33 fluoride also likely to reduce appetite
- 33 FDA approval for fenfluramine in US
- 33 appetite curbed in bovine fluorosis
- 33 disastrous side-effects of fenfluramine
- 38-9 5-Fluorouracil touted at Los Angeles hearings
- 39 dangers of 5-FU
- 41-2 news broadcasters help to advertise fluoride
- 42-3 two year old has stomach pumped after
swallowing fluoride tablets
- 60 Dr T E Douglas' research on stomatitis and
fluoride dentifrices
- 65 FDA fluoride tablet ban

Fluoridation and Truth Decay continued:

- 69 incorporation of accumulated fluoride into naturally occurring compounds, e.g. uracil, to form others (e.g. fluorouracil) capable of causing cancer or deformed babies
- 74 FDA lists fluoride a drug, not a nutrient
- 80-1 McClure applauds promotional contribution of "false" fluoride dentifrice advertising
- 81 dermatitis and gastro-intestinal conditions from fluoride toothpaste
- 81 headaches, fever and blood in stools in children on Tri-Vi-Flor
- 83 pharmacists supply tablets despite warning
- 83-4 tablets
- 87 billion dollar dentifrice market
- 87 reasons for FDA fluoride tablet ban
- 87 Crest remained on drug list to get ADA approval
- 94 Dr Ericsson's objectivity questioned in Sweden
- 100-1 side-effects from fluoride "brush-ins"
- 101-2 Dr Horowitz's predictable change of mind on topical fluoride treatments
- 102-3 school mouthwash programmes illegal under California Pharmacy Law
- 111-2 fluoroalkane aerosol propellants and cardiac toxicity
- 112 rise in death among asthmatics
- 113 rise in death among asthmatics
- 113 reports show aerosol nebulizers made asthma worse
- 114 heart patients warned to avoid breathing aerosol gas
- 114 aerosol risk from "trash mashers"
- 114 call for blood serum analysis in aerosol users
- 114-6 attempted denigration of Taylor and Harris work on aerosols
- 116-7 the manufacturers' warning of side effects from isoproterenol propelled by fluoroalkane gas

Fluoridation and Truth Decay continued:

- 117 Taylor and Harris finding that fluorinated aerosol propellants are potent cardiovascular toxins confirmed in every species tested
- 118 fluorocarbon propellants found in adrenal glands
- 118 FDA concedes propellants are not inert
- 118 FDA dithers over propellants to accommodate manufacturers
- 118-9 aerosol lacquer to seal fluoride-treated tooth surfaces
- 119-120 deaths and liver and kidney toxicity of methoxyflurane anaesthetic (Penthane)
- 120 fluoride poisoning from tranquillizer
- 122 fluorine nerve gas "kicker"
- 140 similarity between death from compound 1080 poisoning and aerosol fluorocarbons
- 162 anorectic effect of fluoride
- 179 Pharmacy Laws forbid fluoride without prescription
- 191 bill acknowledges that fluoride toothpastes are hazardous
- 205 urticarial rash in pregnant woman from vitamins with fluoride
- 205-6 diarrhoea, bloody stools and weight loss in one-year-old from vitamins with fluoride, fluoridated water
- 231 failure of fluoridation in Baltimore and Pittsburgh
- 237 FDA/manufacturers' warnings on fluoride preparations
- 237 FDA bans fluoride supplements for pregnant women on grounds of uselessness and danger of mental retardation
- 238 Denmark 1964 ban on addition of fluorides to consumables
- 238 fluoride supplements, toothpastes not permitted in USSR
- 243 Parkinson's disease from fluorine-containing drugs and water
- 245-6 scientists refute Dr Stare's claim that fluoride is essential

Fluoridation and Truth Decay continued;

- 250-1 use of fluorides in bone disease "playing with fire"
- 251 osteoporosis claims unsupported by available data
- 251 ossification in tendons and osteomalacia from high-fluoride osteoporosis treatment
- 251 fluoride therapy produces abnormal bone which is fracture prone
- 251 high incidence of collapsed vertebrae in Dr Stare's North Dakota study
- 251 no statistically significant difference in osteoporosis between low-fluoride Leeds and high-fluoride Hartlepool
- 251 effect on calcium metabolism through kidney damage likely in fluorosis
- 251 kidney at special risk from damage from fluoride toxicity
- 252 calcium retention enhanced by fluoride, further promoted by additional calcium
- 252 anorexia and epigastric pain caused by NaF therapy
- 252 symptoms of osteoarthritis worsened by NaF therapy
- 252 NaF therapy alters bone cell function
- 252 optic neuritis after six weeks NaF therapy
- 270 fluoride in vitamins, tranquilizers, steroids and many other drugs
- 271 methyl mercury key to organofluoride danger
- 271 inhibition of some enzymes 500 times greater with organic fluorides than with inorganic fluorides
- 271 arrogant officials deny organofluoride hazard exists
- 271 aerosol and positive sputum pap tests
- 271-2 aerosol deodorants and lung damage
- 272 CFC propellants and sudden heart failure
- 272 routine use of aerosols may be factor in lung cancer
- 272 116,000 pounds of fluoride added to the environment from 1971 US fluoridated dentifrice production
- 274 Massachusetts dentists recommend all-round fluoride
- 275 topical fluoride applications to the teeth

- 275 1948 US Congress grant for topical treatment promotion
275 topical treatment abandoned at Dental Infirmary for
Children, Boston, Massachusetts
275 neither fluoridated toothpaste nor topical application
with stannous fluoride found to be of benefit — McClure
275 ADA officials profit from Crest endorsement
275 Proctor and Gamble pay \$500,000 in grants to Dr Muhler
at U of Indiana for research on Crest's efficacy
276 validity of Dr Muhler's research questioned
276 four year experiment involving 1000 English
children abandoned when no significant differences
found between fluoride and non-fluoride dentifrices
276 statistical work in some US toothpaste
experiments was done by the toothpaste
manufacturers or firms paid by them
276 NIDR report fluoride toothpastes ineffective
276 UK study of 719 children shows fluoride paste no better,
more black-brown stains in the experimental group
276 Nader tells FTC brown stains four times more frequent
in users of stannous fluoride type toothpastes##
276 FDA disallows any claims a toothpaste "helps harden and
strengthen the structure of tooth enamel on contact"
277 dangerous lead levels reported in outer coatings of##
tubes of five brands of toothpaste
277 potentially hazardous amounts of lead found in the
toothpaste itself in three brands
277 elevated blood lead found in toothpaste-consuming child
277 postulates that age of toothpaste may
affect lead content
277 manufacturers deny lead findings, invent new tube
277 tablets, drops and vitamin-fluoride supplements
277 Denmark banned tablets, drops and
vitamin-fluoride supplements in 1974
278 urticaria, exfoliative dermatitis, atopic dermatitis,
stomatitis, gastro-intestinal and respiratory allergy in
seven toothpaste/vitamin preparation allergy victims

Fluoridation and Truth Decay continued:

- 278 pharmaceutical companies aware of the dangers of
tablets, drops and vitamin-fluoride supplements,
protect themselves by warning of side-effects
- 281 toothpaste patent holders and
promoters author 1970 WHO report
- 289 allergic reactions to fluoride dentifrices and vitamins

Fluoridation 1979:

Scientific Criticisms and Fluoride Dangers pages:

- 118-122 fluoride in toothpaste, mouthwashes and
tablets
- 208 recent marked decreases in the recommended
dose of fluoride
- 254-258 fluoride tablets
- 255 ADA warning on fluoride tablets
- 268 sale of fluoride tablets in Australia
- 269 fluoride tablet dosage
- 269 fluoride tablet dosage in pregnancy
- 276 Japanese switch to non-fluoride toothpaste

Fluoride in Australia \ A Case to Answer pages:

- 27 cancer link with dentifrices more probable
- 35 fluoride dentifrices given the credit, but no evidence
- 46 dentifrices a contribution to total dosage
- 46 controversy over use of fluoride dentifrices in
fluoridated areas
- 46 UK Ministry of Health recommends against use of
fluoride toothpaste in fluoridated areas
- 46 promoters of fluoridation and
fluoride toothpaste work together
- 50 DNA damage from toothpaste-sized doses in Japanese study
- 51 Japan's leading toothpaste manufacturer removes
fluoride from all its formulas
- 53 fluoride dentifrice manufacturers interest in
fluoridation
- 62 toothpaste manufacturers and
fluoridation — a symbiotic relationship
- 63 danger of fluoride overdosage from toothpaste
- 63 fluoride inhibits lactic fermentation in saliva
- 63 vigorous promotion of fluoride toothpaste in
high-fluoride East African countries
- 63 other dubious toothpaste ingredients
- 64 legitimisation of fluoride (in products) by
water fluoridation
- 64 American Dental Association opposes fluoride toothpaste
US FDA demand warning on Crest toothpaste
- 65 growth of toothpaste production in Australia
- 65 fluoride in drugs
- 97 promoters differ over fluoride tablets
fluoride tablets in Australia
- 97-8 Prof Martin claims tablet administration during
last six months of pregnancy beneficial
- 98 past president of Australian Dental Association says
tablets are suspect, points out their use condemned by
National Health and Medical Research Council

Fluoride in Australia \ A Case to Answer continued:

- 98 US FDA describe tablets misbranded
98 insufficient justification for fluoride tablets
during pregnancy — British Dental Journal
98 breast fed babies "deprived" of fluoride — should be
given tablets, says promoter
98 barrier against fluoride in pregnancy
98 advisor on pharmacology to Swedish government feared
high-fluoride infants' brains would be affected,
producing permanent disorders in learning ability and
other subtle behavioural effects
98-99 Prof Martin and ADA Fluoridation Committee
member disagree over tablet use for milk drinkers
99 MIMS advice on tablets contradicts NHMRC advice
99 death of Queensland two-year-old from
six fluoride tablets
99 how much is "too much"?

Fluoride \ The Freedom Fight pages:

- 87 "38% reduction" with fluoride tablets
144 tablets
