

A Struggle With Titans page:

30-1 doubts whether concentration could be maintained

Fluoridation and Truth Decay pages:

1 [photo]; fluoride lorry and workers in protective  
clothing emptying 5000 gallons of fluoride into  
Lake Youngs, Seattle

48-9 equipment breakdown in Jackson, Michigan

49-50 equipment breakdowns due to corrosion of metal parts,  
impossible to maintain 1 ppm

221 0.2 ppm range for Grand Rapids dosing

The Fluoride Question page:

131 opposition from water engineers

132 water engineers "jolly tired"

Fluoridation 1979

Scientific Criticisms and Fluoride Dangers pages:

59-62 the difficulty in controlling fluoride  
concentration

Fluoride \ The Aging Factor pages:

12 Annapolis fluoride spill

Fluoride in Australia \ A Case to Answer pages:

39                    1.7, 1.8 and 2.6 ppm found in Melton, Victoria  
46                    moves afoot to lower the fluoridation concentration

Fluoride \ The Freedom Fight pages:

85    crowds queue to use unfluoridated supply from standpipes  
96    long term threefold overfeed covered up by authorities  
150    "if the fluoridation apparatus had been run by a horse,  
            the result would have been the same"
