

A Struggle With Titans pages:

- 62 liver damage damages claim
93 accumulation in liver
151 liver damage in experimental animals exposed to
fluoride fumes
215 low level in liver in acute fluoride poisoning
221 death due to liver damage in anaesthetic containing
28% fluorine

Fluoride in Stomatology and Hygiene page:

- 106 fluoride content of cow's liver
fluoride content of liver of guinea pig, dog, cows

Fluoridation and Truth Decay pages:

- 22 liver damage in regions of endemic fluorosis
24 lipase inhibited up to 50% at one part in 15,000,000
53 up 500% increase in accumulation in bones, teeth
kidneys, livers and spleens in experimental animals,
cripples born to the third generation
119-120 deaths and liver and kidney toxicity of
methoxyflurane anaesthetic (Penthrane)
247 McClure's 1933 review of fluoride inhibition of
lipase, carbohydrate enzymes, pepsin and urease
247 50% inhibition of lipase at one part in 15,000,000
247 25% decrease in succinic dehydrogenase activity in
liver at 1 ppm
247 in vivo 6.4% inhibition of liver activity at 1 ppm
259 relationship between high fluoride and calcium in and
degeneration of heart, liver and kidney tissue in
experimental animals
-

Environmental Fluoride 1977 pages:

- 63 fluoride-induced changes in experimental animals
64 changes in liver enzymes related to
carbohydrate metabolism
65 table 17: fluoride-induced changes in
experimental animals

Fluoridation \ The Great Dilemma pages:

- 50-1 liver disease and F⁻
92-3 liver disease and F⁻
93 hepatitis with F⁻ exposure
150-1 esterase, inhibition by F⁻
151 phosphorylase, inhibition by F⁻
151-2 F⁻ content

Fluoride \ The Aging Factor pages:

- 2 diseased livers in Kiziltaoern cattle
74 accumulation in liver before and after fluoridation in US

Fluoride in Australia \ A Case to Answer page:

- 47 debate over fluoride in soft tissues

National Fluoridation News (is unsorted prior to) issue:
